dr black invites readers to shadow his breathtaking journeys into the brain as he battles some of the deadliest and most feared tumors known to medical science welcome to tiger country the treacherous territory where a single wrong move by a brain surgeon can devastate or end a patient's life this is the terrain world renowned neurosurgeon keith black md enters every day to produce virtual medical miracles along the way he shares his unique insights about the inner workings of the brain his unwavering optimism for the future of medicine and the extraordinary stories of his patients from ministers and rock stars to wealthy entrepreneurs and uninsured students whom he celebrates as the real heroes brain surgeon offers a window into one man's remarkable mind revealing the anatomy of the unflinching confidence of this master surgeon whose personal journey brought him from life as a young african american boy growing up in the civil rights era south to the elite world of neurosurgery through dr black's white knuckle

descriptions of some of the most astonishing medical procedures performed today he reveals the beauty and marvel of the human brain and the strength and heroism of his patients who refuse to see themselves as victims ultimately brain surgeon is an inspiring story of the struggle to overcome odds whether as a man a doctor or a patient praise for brain surgeon an inspirational book about true heroes readers will marvel at keith black s achievements both as a doctor and as a man and will be in awe of his patients courage and will to survive denzel washington a rare behind the curtain look at the life of one of the most pre eminent neurosurgeons in the world sanjay gupta md chief medical correspondent cnn

with cutting edge science and colorful anecdotes a neurosurgeon reveals how to boost your mental performance and creativity in everyday life from performing risky surgeries to leading innovative research dr rahul jandial is at the very forefront of neuroscience in this fascinating book he draws on his wide ranging expertise to explain the bigger picture of brain health and rejuvenation taking readers from the operating room and the lab to surgical missions around the world dr jandial introduces the latest breakthroughs in neuroscience and explains how this incredible knowledge can be applied to everyday life busting myths along the way jandial helps readers get wired for success at work and school perform better when the pressure is on boost memory control stress and emotions minimize pain stick to a healthy eating plan unleash creativity raise smarter kids and stay sharp as they age combining the treatment guidelines he gives his patients the most promising concepts from frontier science and the smartest super achiever hacks dr jandial provides practical takeaways for optimizing brain function and leading a healthier happier more productive life previously published under the title neurofitness

katrina firlik is a neurosurgeon one of only two hundred or so women among the alpha males who dominate this high pressure high prestige medical specialty she is also a superbly gifted writer witty insightful at once deeply humane and refreshingly wry in another day in the frontal lobe dr firlik draws on this rare combination to create a neurosurgeon s kitchen confidential a unique insider s memoir of a fascinating profession neurosurgeons are renowned for their big egos and aggressive self confidence and dr firlik confirms that timidity is indeed rare in the field they re the kids who never lost at musical chairs she writes a brain surgeon is not only a highly trained scientist and clinician but also a mechanic who of necessity develops an intimate hands on familiarity with the gray matter inside our skulls it s the balance between cutting edge medical technology and manual dexterity between instinct and expertise that firlik finds so appealing and so difficult to master firlik recounts how her background as a surgeon s daughter with a strong stomach and a keen interest in the brain led her to this rarefied specialty and she describes her challenging atypical trek from medical student to fully qualified surgeon among firlik s more memorable cases a young roofer who walked into the hospital with a three inch long barbed nail driven into his forehead the result of an accident with his partner s nail gun and a sweet little seven year old boy whose untreated earache had become a

raging potentially fatal infection of the brain lining from or theatrics to thorny ethical questions from the surprisingly primitive tools in a neurosurgeon's kit to glimpses of future techniques like the brain lift. It cracks open medicine's most prestigious and secretive specialty candid smart clear-eyed and unfailingly engaging. Another day in the frontal lobe is a mesmerizing behind-the-scenes glimpse into a world of incredible competition and incalculable rewards.

The human brain is a powerful organ there's so much we don't know about how it works what we do know is astounding. For example information in your brain can move as fast as 265 miles (425 km) per hour faster than a racecar. This truly entertaining and informative volume is full of fascinating facts about the human brain. For the brain surgeons of tomorrow they'll learn how we know about the brain what we're trying to learn and even the basics of neurosurgery preparing them to be the scientists and doctors who will crack the mysteries of the human brain.

With engrossing stories from the OR and the lab a leading neurosurgeon and neuroscientist explores the cutting-edge science that can be applied to everyday life for peak performance improved memory enhanced creativity and much more.

It's a brilliant book there are lessons in every paragraph. Get it now. Chris Evans' wonderful and wild. I loved this book. James Nestor bestselling author of *Breath* moving raw and unflinching. Julia Samuel bestselling author of *This Too Shall Pass* incredible storytelling. Dr. Rangan Chatterjee bestselling author of *Feel Better in 5* how do you carry on when things go deadly wrong? When Dr. Rahul Jandial operated on Karina an eleven-year-old girl whose spinal cord was splitting in two he had to make an impossible decision he followed his head over his gut and Karina was left permanently paralysed altering both patient and surgeon's lives for ever. This decision would haunt Rahul for decades a constant reminder of the fine line between saving and damaging a life. As one of the world's leading brain surgeons Rahul is the last hope for patients with extreme forms of cancer. In treating them he has observed humanity at its most raw and most robust he has journeyed to unimaginable extremes with them guiding them through the darkest moments of their lives. Life on a knife's edge is Rahul's poetic and beautifully written account of the resilience courage and belief he has witnessed in his patients and the lessons about human nature he has learned from them. It is about the impossible choices he has to make and the fateful consequences he is forced to live with from challenging the ethics of surgical practices to helping a patient with locked-in syndrome communicate her dying wish to her family. Rahul shares his extraordinary experiences revealing the depths of a surgeon's psyche that is continuously pushed to its limits.

Riveting and dramatic *The Tenth Nerve* offers a rare window into the world of a pre-eminent neurosurgeon and the seven exceptional patients that

made him a better person the scalpel can only go so deep and technical skill can only take one so far in this absorbing narrative dr chris honey an accomplished neurosurgeon at vancouver general hospital weaves his personal journey together with case studies that reflect the thrill of scientific discovery and the limitations of medicine operating on a terminally ill child amid an ebola outbreak in liberia he questions his preconceptions about what it means to win against a disease reflecting on his own path into neurosurgery he brings to life a relatively new high stakes field of medicine one that historically demanded emotional detachment and often attracts extreme personalities with a compassionate eye he traces the courage and determination of several patients suffering from mysterious unrecognized illnesses two of whom led dr honey and his team to discover an entirely new disease and its cure in clear engaging prose he invites us into the operating room to witness this extraordinary discovery involving the tenth cranial nerve alongside him and outside the or an unusual friendship with a former patient alters his perspective on clinical detachment and what quality of life really means combining a humane perspective lively anecdotes and a deep curiosity about the uncharted territories of the human brain the tenth nerve is a richly fascinating memoir that will fill you with wonder
